1 Introduction

1.1 About us

SFJ Awards is part of the Workforce Development Trust, together with Skills for Justice and Skills for Health. For over 10 years Skills for Health and Skills for Justice have been working with employers, Governments of the UK and agencies within the skills system, to better equip workforces with the right skills now and for the future.

During this time both Skills for Health and Skills for Justice have earned an enviable reputation for their knowledge of the health and justice sectors and their proactive approach to the development of skills and qualifications, along with an ability to deliver genuinely workable solutions for the employers they represent.

SFJ Awards is an awarding organisation that builds upon this reputation. We work with employers in the policing, community safety, legal, armed forces, security, and health sectors and understand their specific challenges, enabling us to quality assure learning outcomes that are suited to the needs of the sectors.

Customer satisfaction is the cornerstone of our organisation, and is delivered through an efficient service, providing excellent value for money.

1.2 Customer Service Statement

Our Customer Service Statement is published on SFJ Awards website giving the minimum level of service that centres can expect. The Statement will be reviewed annually and revised as necessary in response to customer feedback, changes in legislation, and guidance from the qualifications Regulators.

1.3 Centre support

SFJ Awards works in partnership with its customers. For help or advice contact:

SFJ Awards
Consult House
Meadowcourt Business Park
4 Hayland Street
Sheffield

2 The Qualification

2.1 Qualification objective

This handbook relates to the following qualifications:

SFJ Awards Level 3 Award in First Aid at Work

SFJ Awards Level 3 Award in Emergency First Aid at Work

The objective of these qualifications is to provide learners with the knowledge and skills to become first aiders in the workplace. The qualifications meet the requirements of the Health and Safety Executive (HSE) First Aid Regulations for training first aiders in those organisations that have identified the need for staff to be trained to this level within their first aid needs assessments.

In line with guidance provided by the HSE, the qualifications are valid for a period of 3 years from the date of award.

2.2 Pre-entry requirements

There are no pre-entry requirements for enrolling on these qualifications.

However, centres must ensure that learners are able to complete the qualifications, for example, through completing a skills scan to ensure they can work at the appropriate level, are proficient in the use of English language and physically capable of completing the practical activities involved.

2.3 Qualification structure

2.3.1 SFJ Awards Level 3 Award in First Aid at Work

This qualification is made up of 2 mandatory units. To be awarded this qualification the learner must achieve a total of 2 credits as shown in the table below.

Mandatory Units					
Unit Number	Odyssey Reference	Unit Title	Level	GLH	Credit Value
1	6263	Emergency First Aid in the Workplace	3	6	1
2	6264	Recognition and Management of Illness and Injury in the Workplace	3	12	1

2.3.2 SFJ Awards Level 3 Award in Emergency First Aid at Work

This qualification is made up of 1 mandatory unit. To be awarded this qualification the learner must achieve a total of 1 credit as shown in the table below.

Mandatory Units					
Unit Number	Odyssey Reference	Unit Title	Level	GLH	Credit Value
1	6263	Emergency First Aid in the Workplace	3	6	1

2.4 Total Qualification Time (TQT)

Values for Total Qualification Time¹, including Guided Learning, are calculated by considering the different activities that Learners would typically complete to achieve and demonstrate the learning outcomes of a qualification. They do not include activities which are required by a Learner's Teacher based on the requirements of an individual Learner and/or cohort. Individual Learners' requirements and individual teaching styles mean there will be variation in the actual time taken to complete a qualification. Values for Total Qualification Time, including Guided Learning, are estimates.

Some examples of activities which can contribute to Total Qualification Time include

- Independent and unsupervised research/learning
- Unsupervised compilation of a portfolio of work experience
- Unsupervised e-learning
- Unsupervised e-assessment
- Unsupervised coursework
- Watching a pre-recorded podcast or webinar
- Unsupervised work-based learning
- All Guided Learning

Some examples of activities which can contribute to Guided Learning include:

- Classroom-based learning supervised by a Teacher
- Work-based learning supervised by a Teacher
- Live webinar or telephone tutorial with a Teacher in real time
- E-learning supervised by a Teacher in real time
- All forms of assessment which take place under the Immediate Guidance or Supervision of a lecturer, supervisor, tutor or other appropriate provider of education or training, including where the assessment is competence-based and may be turned into a learning opportunity.

Please note these are estimated hours. It is the responsibility of centres to decide the appropriate course duration, based on their learners' ability and level of existing knowledge. It is possible, therefore, that the number of guided learning hours will vary from one centre to another according to learners' needs.

The Total Qualification Time and Guided Learning Hours for the qualifications are as follows:

Qualification Title	TQT	GLH
SFJ Awards Level 3 Award in First Aid at Work	22	18
SFJ Awards Level 3 Award in Emergency First Aid at Work	7	6

¹ Total Qualification Time, Ofqual

<https://www.gov.uk/guidance/ofqual-handbook/section-e-design-and-development-of-qualifications>

2.5 First Aid at Work re-qualifying

Learners who have previously attained the First Aid at Work qualification should re-qualify by undertaking the full qualification again. Providing the learner's First Aid at Work certificate has not expired by more than 1 calendar month (e.g. expired on 5th, started course on or before 4th of the following month), the contact hours may be reduced to 12 hours over 2 days. Learners must be assessed against all learning outcomes and assessment criteria in the units. To attend the shorter re-qualification course, learners should provide evidence of their previous First Aid at Work qualification.

Centres and employers should be aware that if a workplace first aider's certificate expires, they will not be accepted as a first aider for the purposes of the First Aid at Work Regulations until they have re-taken the qualification.

2.6 Standards for duration, certification and delivery of first aid qualifications

Centres must adhere to the following conditions as stated in the FAAOF Delivery Standards for Regulated First Aid Qualifications (<https://faaof.org/delivery-standards/>):

SFJ Awards Level 3 Award in First Aid at Work						
Minimum Contact Hours ¹	Minimum Days ²	Maximum Weeks ³	Minimum Session ⁴	Learner/Trainer Ratio ⁵	Certificate Validity ⁶	Annual Refresher ⁷ (recommended)
18	3	10	2	12:1	3 years	Yes

SFJ Awards Level 3 Award in First Aid at Work (Re-qualification)						
Minimum Contact Hours ¹	Minimum Days ²	Maximum Weeks ³	Minimum Session ⁴	Learner/Trainer Ratio ⁵	Certificate Validity ⁶	Annual Refresher ⁷ (recommended)
12	2	7	2	12:1	3 years	Yes

SFJ Awards Level 3 Award in Emergency First Aid Work						
Minimum Contact Hours ¹	Minimum Days ²	Maximum Weeks ³	Minimum Session ⁴	Learner/Trainer Ratio ⁵	Certificate Validity ⁶	Annual Refresher ⁷ (recommended)
6	N/A	4	2	12:1	3 years	Yes

1. Time set aside for direct classroom teaching and assessing excluding breaks.
2. Minimum number of days over which the training should be delivered.
3. Maximum number of weeks over which the qualification can be attained. Special considerations may be taken into account to increase this duration if necessary.
4. Minimum duration of any one training session.

5. Maximum number of learners per trainer or learners per assessor at any one time.
6. Validity period of certificate to be calculated from the date of achievement of the final unit.
7. Annual refresher courses are recommended to maintain learner acquired levels of knowledge and competence.

Blended Learning is permitted under the following circumstances **only** as specified in the FAAOF Blended Learning in First Aid Quality Assurance Standards (<https://faaof.org/blended-learning/>):

- The time taken to complete the first aid course should not be reduced. There may be a benefit in flexibility, but blended learning should not reduce the overall time required to take the course.
- The employer should provide paid time for the employee to undertake the training. The employee should not be required to take the distance-learning element of the course in their 'own' time.
- Following completion of the distance element of learning, the learner must be assessed by a suitably qualified First Aid Assessor (who has qualifications and experience as described in the Assessment Principles for Regulated First Aid Qualifications document or HSE's GEIS3). The First Aid assessor must be satisfied that all the assessment criteria for the learning outcomes delivered via distance learning have been met. Auditable evidence should be generated. It is the training provider's responsibility to confirm the identity of the learner and the authenticity of the evidence.
- The assessment should be quality assured following national occupational standards (NOS).
- A minimum face-to-face learning duration is as follows:

Course	Total course minimum hours duration	Minimum face-to-face learning hours
First Aid at Work	18	12
First Aid at Work (Requalifying)	12	6
Emergency First Aid at Work	6	4

- The general practical elements of the training course are the learning outcomes that should be delivered and assessed face-to-face.

Note:

- **Distance learning:** eLearning or virtual classroom learning
- **Face-to-face:** in the same room (not via the internet)

Lesson Plans: Centres should plan and deliver training in accordance with detailed lesson plans, detailing timetables for delivery, aims, outcomes and objectives for each session, learner and trainer activity. Training should be delivered to the principles set out in NOS 7 Facilitate Individual Learning and Development.

End of Course Evaluation: Centres should have an evaluation procedure, based on learner feedback, to evaluate the ability of trainers/assessors, the structure and content of the course, the equipment used and the training venue.

Internal Quality Assurance: In addition to monitoring assessments, IQA monitoring undertaken by centres should also verify the trainer's ability in teaching first aid.

Standards of First Aid Practice: Skills and knowledge must be taught and assessed in accordance with currently accepted first aid practice in the United Kingdom as laid down:

- By the Resuscitation Council (UK); and
- In other publications, provided that they are supported by a responsible body of medical opinion.

2.7 Age range and geographical coverage

These qualifications are available to learners aged 16 years and over and are regulated in England and Wales.

2.8 Opportunities for progression

These qualifications create a number of opportunities for progression into other first aid qualifications.

2.9 Use of languages

SFJ Awards business language is English and we provide assessment materials and qualification specifications that are expressed in English. Assessment specifications and assessment materials may be requested in Welsh or Irish and, where possible, SFJ Awards will try to fulfil such requests. SFJ Awards will provide assessment materials and qualification specifications that are expressed in Welsh or Irish and support the assessment of those learners, where the number of learners makes it economically viable for SFJ Awards to do so. More information is provided in the SFJ Awards' Use of Language Policy.

For learners seeking to take a qualification and be assessed in British Sign Language or Irish Sign Language, please refer to SFJ Awards' Reasonable Adjustments Policy. A learner may be assessed in British Sign Language or Irish Sign Language where it is permitted by SFJ Awards for the purpose of Reasonable Adjustment.

Policies are available on our website www.sfjawards.com or on request from SFJ Awards.

3 Qualification Units

Title	Emergency First Aid in the Workplace		
Level	3		
Unit Number	1		
Credit Value	1		
GLH	6		
Learning Outcomes <i>The learner will:</i>	Assessment Criteria <i>The learner can:</i>		*Indicative Content
1. Understand the role and responsibilities of a first aider	1.1	Identify the role and responsibilities of a first aider	Identification of the roles and responsibilities of a first aider may include: <ul style="list-style-type: none"> • Preventing cross infection • Recording incidents and actions • Safe use of available equipment • Assessing an incident • Summoning appropriate assistance • Prioritising treatment

			<ul style="list-style-type: none"> • Dealing with post incident stress
	1.2	Identify how to minimise the risk of infection to self and others	<p>Minimising the risk of infection may include:</p> <ul style="list-style-type: none"> • Personal Protective Equipment (PPE) • Hand hygiene • Disposal of contaminated waste • Using appropriate dressings • Barrier devices during rescue breaths • Covering own cuts <p>Others may include casualties, work colleagues or people within the workplace environment.</p>
	1.3	Identify the need for consent to provide first aid	<p>Identifying the need to gain consent may include:</p> <ul style="list-style-type: none"> • Gaining consent • Implied consent
2. Be able to assess an emergency situation safely	2.1	Conduct a scene survey	<p>Conducting a scene survey may include:</p> <ul style="list-style-type: none"> • Checking for further danger • Identifying the number of casualties

			<ul style="list-style-type: none"> • Evaluating what happened • Prioritising treatment • Delegating tasks
	2.2	Conduct a primary survey of a casualty	<p>The primary survey sequence may include:</p> <ul style="list-style-type: none"> • Danger • Response • Airway • Breathing • Circulation
	2.3	Summon appropriate assistance when necessary	<p>Summoning appropriate assistance may include:</p> <ul style="list-style-type: none"> • Shouting for help • Calling 999/112 via speakerphone or bystander • Leaving the casualty to call 999/112 • Calling an NHS emergency helpline such as 111
3. Be able to provide first aid to an unresponsive casualty	3.1	Identify when to administer Cardiopulmonary Resuscitation (CPR)	<p>Identifying when to administer CPR must include:</p> <ul style="list-style-type: none"> • When the casualty is unresponsive and: <ul style="list-style-type: none"> ➤ Not breathing

			<ul style="list-style-type: none"> ➤ Not breathing normally/agonal breathing
	3.2	Demonstrate adult CPR using a manikin	<p>Demonstrating CPR must include:</p> <ul style="list-style-type: none"> • 30 chest compressions <ul style="list-style-type: none"> ➤ Correct hand positioning ➤ 5-6cm compression depth ➤ 100-120 per minute • 2 rescue breaths <ul style="list-style-type: none"> ➤ Correct rescue breath positioning ➤ Blowing steadily into mouth (about 1 sec to make chest rise) ➤ Taking no longer than 10 seconds to deliver 2 breaths • AED (Defibrillator) <ul style="list-style-type: none"> ➤ Correct placement of AED pads

			<p>➤ Following AED instructions</p> <p>CPR – minimum demonstration time of 2 minutes at floor level</p> <p>May additionally include use of rescue breath barrier devices.</p>
	3.3	Identify when to place a casualty into the recovery position	<p>Identifying when to place the casualty into the recovery position should include when the casualty has lowered levels of response and:</p> <ul style="list-style-type: none"> • Does not need CPR • Is breathing normally • Is uninjured <p>An injured casualty may be placed in the recovery position if the airway is at risk (e.g. fluids in the airway or you need to leave the casualty to get help)</p>
	3.4	Demonstrate how to place a casualty into the recovery position	<p>Placing a casualty into the recovery position may include:</p> <ul style="list-style-type: none"> • Placing in a position that maintains a stable, open, draining airway at floor level • Continually monitoring airway and breathing

			<ul style="list-style-type: none"> • Turning the casualty onto the opposite side every 30 minutes • Placing heavily pregnant casualty on their left side
	3.5	Demonstrate continual monitoring of breathing whilst the casualty is in the recovery position	<p>Continually monitoring airway and breathing includes:</p> <ul style="list-style-type: none"> • Continual checking for normal breathing to ensure that cardiac arrest can be identified immediately
	3.6	Identify how to administer first aid to a casualty who is experiencing a seizure	<p>Administering first aid to a casualty having a generalised seizure may include:</p> <ul style="list-style-type: none"> • Keeping the casualty safe (removing dangers) • Noting the time and duration of the seizure • Opening airway and checking breathing post seizure • Determining when to call 999/112

4. Be able to provide first aid to a casualty who is choking	4.1	Identify when a casualty is choking	<p>Identifying mild choking may include recognising the casualty is able to:</p> <ul style="list-style-type: none"> • Speak • Cough • Breathe <p>Identifying severe choking may include recognising the casualty is:</p> <ul style="list-style-type: none"> • Unable to cough effectively • Unable to speak • Unable or struggling to breathe • In visible distress • Unconscious
	4.2	Demonstrate how to administer first aid to a casualty who is choking	<p>Administering first aid for choking should include the following:</p> <ul style="list-style-type: none"> • Encouraging to cough • Up to 5 back blows • Up to 5 abdominal thrusts • Calling 999/112 when required • CPR if unconscious

			Demonstration must be simulated using a training device – not another learner.
5. Be able to provide first aid to a casualty with external bleeding	5.1	Identify whether external bleeding is life-threatening	<p>Identifying the severity of arterial bleeding may include recognising the blood:</p> <ul style="list-style-type: none"> • Is under pressure • spurts in time with the heartbeat <p>Recognition that arterial bleeding is a life-threatening emergency</p> <p>Identifying the severity of venous bleeding may include recognising the blood:</p> <ul style="list-style-type: none"> • Volume in veins is comparable to arteries • Flows profusely from the wound <p>Recognition that venous bleeding is a life-threatening emergency</p> <p>For context - identifying capillary bleeding may include recognising that blood trickles</p>

			from the wound. Capillary bleeding is not a life-threatening emergency.
	5.2	Demonstrate how to administer first aid to a casualty with external bleeding	<p>Administering first aid for external bleeding may include:</p> <ul style="list-style-type: none"> • Maintaining aseptic technique • Siting or laying the casualty • Examining the wound • Applying direct pressure onto (or into) the wound • Dressing the wound <p>Catastrophic bleeding treatment may include:</p> <ul style="list-style-type: none"> • Wound packing • Tourniquet application • Improvised tourniquet application
6. Know how to provide first aid to a casualty who is suffering from shock	6.1	Recognise when a casualty is suffering from shock	<p>Shock: hypovolaemic shock (resulting from blood loss)</p> <p>Hypovolaemic shock recognition may include:</p> <ul style="list-style-type: none"> • Pale, clammy skin • Fast, shallow breathing • Rise in pulse rate • Cyanosis

			<ul style="list-style-type: none"> • Dizziness/passing out when sitting or standing upright
	6.2	Identify how to administer first aid to a casualty who is suffering from shock	<p>Administering first aid for hypovolaemic shock may include:</p> <ul style="list-style-type: none"> • Treating the cause • Casualty positioning • Keeping the casualty warm • Calling 999/112
7. Know how to provide first aid to a casualty with minor injuries	7.1	<p>Identify how to administer first aid to a casualty with:</p> <ul style="list-style-type: none"> • Small cuts • Grazes • Bruises • Small splinters • Nosebleeds 	<p>Administering first aid for small cuts and grazes may include:</p> <ul style="list-style-type: none"> • Irrigation • Dressing <p>Administering first aid for bruises may include:</p> <ul style="list-style-type: none"> • Cold compress for 10 minutes <p>Small splinter removal may include the following steps:</p> <ul style="list-style-type: none"> • Cleaning of area • Remove with tweezers • Dress <p>Administering first aid for a nosebleed may include:</p>

			<ul style="list-style-type: none"> • Sitting the casualty down, head tipped forwards • Pinching the soft part of the nose • Telling the casualty to breathe through their mouth
	7.2	Identify how to administer first aid to a casualty with minor burns and scalds	Administering first aid for minor burns and scalds may include: <ul style="list-style-type: none"> • Cooling for 20 minutes • Removing jewellery and loose clothing • Covering the burn • Determining when to seek advice
Additional information about the unit			
*Indicative content	The purpose of the indicative content in this unit is to provide an indication of the context behind each assessment criteria. This is not intended to be exhaustive or set any absolute boundaries		
Unit purpose and aims	Purpose of the unit is for the learner to attain knowledge and practical competences required to deal with a range of workplace first aid situations		
Details of the relationship between the unit and relevant NOS or other professional standards or curricula (if appropriate)	First Aid at Work Health and Safety (First Aid) Regulations 1981 Guidance on Regulations (L74) Resuscitation Council (UK) Guidelines		

Assessment requirements or guidance specified by a sector or regulatory body (if appropriate)	This unit should be delivered, assessed and quality assured in accordance with <i>FAAOF Assessment Principles for Regulated First Aid Qualifications</i>
Support for the unit from an SSC or other appropriate body	Health and Safety Executive
Location of the unit within the subject/sector classification system	Health and Social Care
Availability for use	Restricted to AOs who meet the Terms of Reference of the First Aid Awarding Organisation Forum
Simulation	Simulation is permitted in this unit. The following ACs must be assessed by practical demonstration: 3.2, 3.4, 3.5, 4.2, 5.2.

Title	Recognition and Management of Illness and Injury in the Workplace		
Level	3		
Unit Number	2		
Credit Value	1		
GLH	12		
Learning Outcomes <i>The learner will:</i>	Assessment Criteria <i>The learner can:</i>		*Indicative Content
1. Be able to conduct a secondary survey	1.1	Identify the information to be collected when gathering a casualty history	Information to be collected when gathering a casualty history may include: <ul style="list-style-type: none"> • Signs and symptoms • Event history • Allergies • Past medical history • Last meal • Medication
	1.2	Demonstrate how to conduct a head to toe survey	Performing a systematic check of the casualty may include: <ul style="list-style-type: none"> • Head and neck • Shoulders and chest • Abdomen • Legs and arms Head to toe survey: must be conducted on a casualty with a

			continually monitored or protected airway (e.g. a conscious casualty or a casualty placed in the recovery position).
2. Be able to provide first aid to a casualty with suspected injuries to bones, muscles and joints	2.1	<p>Recognise a suspected:</p> <ul style="list-style-type: none"> • Fracture or dislocation • Sprain or strain 	<p>Recognising fractures, dislocations, sprains and strains may include:</p> <ul style="list-style-type: none"> • Pain • Loss of power • Unnatural movement • Swelling or bruising • Deformity • Irregularity • Crepitus • Tenderness
	2.2	<p>Identify how to administer first aid for a casualty with suspected:</p> <ul style="list-style-type: none"> • Fracture or dislocation • Sprain or strain 	<p>Administering first aid for fractures and dislocations may include:</p> <ul style="list-style-type: none"> • Immobilising / keeping the injury still • Calling 999/112, or • Arranging transport to hospital <p>Administering first aid for sprains and strains may include:</p> <ul style="list-style-type: none"> • Rest • Ice

			<ul style="list-style-type: none"> • Compression/comfortable support • Elevation
	2.3	Demonstrate how to apply: <ul style="list-style-type: none"> • A support sling • An elevated sling 	Demonstrating the application of a sling must include: <ul style="list-style-type: none"> • A support sling • An elevated sling
3. Be able to provide first aid to a casualty with suspected head and spinal injuries	3.1	Recognise a suspected: <ul style="list-style-type: none"> • Head injury • Spinal injury 	Recognising concussion, compression and fractured skull may include: <ul style="list-style-type: none"> • Mechanism of injury • Signs and symptoms • Conscious levels Recognising spinal injury may include: <ul style="list-style-type: none"> • Mechanism of injury • Pain or tenderness in the neck or back <p>Head injury: includes concussion, compression and skull fracture. The learner is not expected to differentiate between these conditions.</p>
	3.2	Identify how to administer first aid for a suspected head injury	Administering first aid for a head injury may include: <ul style="list-style-type: none"> • Determining when to call 999/112

			<ul style="list-style-type: none"> • Maintaining airway and breathing • Monitoring response levels • Dealing with fluid loss
	3.3	Demonstrate how to administer first aid for a casualty with a suspected spinal injury	<p>Administering first aid for spinal injuries may include:</p> <ul style="list-style-type: none"> • Calling 999/112 • Keeping the head and neck in-line • Safe method(s) of placing the casualty into a recovery position whilst protecting the spine (if the airway is at risk)
4. Know how to provide first aid to a casualty with suspected chest injuries	4.1	<p>Identify how to administer first aid for suspected:</p> <ul style="list-style-type: none"> • Fractured ribs • Penetrating chest injury 	<p>Administering first aid for suspected rib fracture may include:</p> <ul style="list-style-type: none"> • Calling 999/112 • Casualty positioning • Supporting the injury <p>Administering first aid for a penetrating chest injury may include:</p> <ul style="list-style-type: none"> • Calling 999/112 • Casualty positioning • Controlling bleeding around the wound

			<p>(without covering the wound)</p> <ul style="list-style-type: none"> Leaving a sucking chest wound open to fresh air
5. Know how to provide first aid to a casualty with burns and scalds	5.1	Identify how to recognise the severity of burns and scalds	<p>Recognising the severity of burns and scalds may include:</p> <ul style="list-style-type: none"> Cause Age Burn/scald size Depth Location
	5.2	<p>Identify how to administer first aid for burns involving:</p> <ul style="list-style-type: none"> Dry/wet heat Chemicals Electricity 	<p>Administering first aid for dry/wet heat burns may include:</p> <ul style="list-style-type: none"> Cooling the burn Removing jewellery and loose clothing Covering the burn Determining when to call 999/112 <p>Administering first aid for chemical burns may include:</p> <ul style="list-style-type: none"> Ensuring safety Brushing away dry/powder chemicals Irrigating with copious amounts of water (unless contra-indicated)

			<ul style="list-style-type: none"> • Treating the face/eyes as priority <p>Administering first aid for electrical burns may include</p> <ul style="list-style-type: none"> • Ensuring it is safe to approach/touch the casualty • Checking DRABC and treating accordingly • Cooling the burns
6. Know how to provide first aid to a casualty with an eye injury	6.1	<p>Identify how to administer first aid for eye injuries involving:</p> <ul style="list-style-type: none"> • Dust • Chemicals • Embedded objects 	<p>Administering first aid for dust in the eye may include:</p> <ul style="list-style-type: none"> • Irrigation with clean water • Ensuring the water runs away from the good eye <p>Administering first aid for a chemical in the eye may include:</p> <ul style="list-style-type: none"> • Irrigation with large volumes of clean water (unless contra-indicated due to the chemical involved) • Ensuring the water runs away from the good eye • Calling 999/112

			<p>Administering first aid for an embedded object in the eye may include:</p> <ul style="list-style-type: none"> • Covering the injured eye • Ensuring the good eye is not used (cover if needed) • Calling 999/112 or arranging transport to hospital
7. Know how to provide first aid to a casualty with suspected poisoning	7.1	Identify how poisonous substances can enter the body	<p>Identification of the following routes a poison can enter the body may include:</p> <ul style="list-style-type: none"> • Ingested (swallowed) • Inhalation (breathed in) • Absorbed (through the skin) • Injected (directly into skin tissue, muscles or blood vessels)
	7.2	Identify how to administer first aid to a casualty with suspected sudden poisoning	<p>Administering first aid for corrosive substances may include:</p> <ul style="list-style-type: none"> • Ensuring your own safety • Substances on the skin – diluting and washing away with water

			<ul style="list-style-type: none"> • Swallowed substances – rinsing out the mouth then giving frequent sips of milk or water (subject to sufficient levels of response) • Calling 999/112 and giving information about the poison if possible • Protecting airway and breathing • Resuscitation if necessary using PPE/barrier devices <p>Administering first aid for non-corrosive substances may include:</p> <ul style="list-style-type: none"> • Ensuring your own safety • Calling 999/112, and giving information about the poison if possible • Protecting airway and breathing • Resuscitation if necessary using PPE/barrier devices
8. Be able to provide first aid to a casualty with anaphylaxis	8.1	Recognise suspected anaphylaxis	Recognising anaphylaxis may include rapid onset and rapid progression of a life-threatening

		<p>airway, breathing and circulation problem:</p> <ul style="list-style-type: none"> • Airway: swelling of the tongue, lips or throat • Breathing: difficult, wheezy breathing or tight chest • Circulation: <ul style="list-style-type: none"> ➤ dizziness, feeling faint or passing out ➤ pale, cold clammy skin and fast pulse ➤ nausea, vomiting, stomach cramps or diarrhoea <p>There may also be skin rash, swelling and/or flushing</p>	
	8.2	Identify how to administer first aid for a casualty with suspected anaphylaxis	<p>Administering first aid for anaphylaxis may include:</p> <ul style="list-style-type: none"> • Calling 999/112 • Correct casualty positioning • Assisting to use their adrenaline auto-injector • Resuscitation if required
	8.3	Demonstrate the use of a ‘training device’ adrenaline auto-injector	<p>The use of a ‘training device’ adrenaline auto-injector: must be demonstrated using a training</p>

			device and NOT a live auto-injector
9. Know how to provide first aid to a casualty with suspected major illness	9.1	<p>Recognise suspected:</p> <ul style="list-style-type: none"> • Heart Attack • Stroke • Epileptic seizure • Asthma attack • Diabetic hypoglycaemic emergency 	<p>Recognising a heart attack may include:</p> <ul style="list-style-type: none"> • Sudden onset • Crushing chest pain • Skin appearance (e.g., pale, grey, sweaty) • Variable pulse • Shortness of breath <p>Recognising stroke may include performing the FAST test:</p> <ul style="list-style-type: none"> • F: Face • A: Arms • S: Speech • T: Time to call 999/112 <p>Other stroke symptoms include sudden problems with balance, walking, dizziness, coordination, vision, and severe headache.</p> <p>Recognising an epileptic seizure may include the following patterns:</p> <ul style="list-style-type: none"> • Aura • Tonic phase • Clonic phase • Recovery phase

			<p>Recognising an asthma attack may include:</p> <ul style="list-style-type: none"> • Difficulty breathing and speaking • Wheezy breathing • Pale and clammy skin • Cyanosis • Use of accessory muscles <p>Recognising a diabetic hypoglycaemic emergency may include:</p> <ul style="list-style-type: none"> • Fast onset • Lowered levels of response • Pale, cold and sweaty skin • Normal or shallow breathing • Rapid pulse
	9.2	<p>Identify how to administer first aid to a casualty suffering from:</p> <ul style="list-style-type: none"> • Heart Attack • Stroke • Epileptic seizure • Asthma attack • Diabetic hypoglycaemic emergency 	<p>Administering first aid for a heart attack may include:</p> <ul style="list-style-type: none"> • Correct casualty positioning • Calling 999/112 • Calming and reassurance • Assisting to take an aspirin if indicated

			<p>Administering first aid for a stroke may include:</p> <ul style="list-style-type: none"> • Maintain airway and breathing • Correct casualty positioning • Calling 999/112 <p>Administering first aid for an epileptic seizure may include:</p> <ul style="list-style-type: none"> • Removing dangers and safely protect the head • Noting the time and duration of the seizure • Loosening tight clothing around the neck • Determining when to call 999/112 • Post seizure care, including monitoring of airway and breathing <p>Administering first aid for an asthma attack may include:</p> <ul style="list-style-type: none"> • Correct casualty positioning • Assisting a casualty to take their reliever inhaler and use a spacer device • Calming and reassurance
--	--	--	---

			<ul style="list-style-type: none"> • Determining when to call 999/112 <p>Administering first aid for a diabetic hypoglycaemic emergency may include:</p> <ul style="list-style-type: none"> • Giving 15-20g of glucose for conscious casualties (subject to sufficient response levels) • Providing further food or drink if casualty responds to glucose quickly • Determining when to call 999/112
Additional information about the unit			
*Indicative content	The purpose of the indicative content in this unit is to provide an indication of the context behind each assessment criteria. This is not intended to be exhaustive or set any absolute boundaries		
Unit purpose and aims	Purpose of the unit is for the learner to attain knowledge and practical competences required to deal with a range of workplace first aid situations		
Details of the relationship between the unit and relevant NOS or other professional standards or curricula (if appropriate)	First Aid at Work Health and Safety (First Aid) Regulations 1981 Guidance on Regulations (L74) Resuscitation Council (UK) Guidelines		
Assessment requirements or guidance specified by a sector or regulatory body (if appropriate)	Unit should be assessed in accordance with Assessment Principles for Regulated First Aid Qualifications		

Support for the unit from an SSC or other appropriate body	Health and Safety Executive
Location of the unit within the subject/sector classification system	Health and Social Care
Availability for use	Restricted to AOs who meet the Terms of Reference of the First Aid Awarding Organisation Forum
Simulation	Simulation is permitted in this unit. The following ACs must be assessed by practical demonstration: 1.2, 2.3, 3.3, 8.3

4 Centre Requirements

Centres must be approved by SFJ Awards and also have approval to deliver the qualifications they wish to offer. This is to ensure centres have the processes and resources in place to deliver the qualifications. Approved centres must adhere to the requirements detailed in the SFJ Awards Centre Handbook, which includes information for centres on assessment and internal quality assurance (IQA) processes and procedures.

Centres are responsible for ensuring that their assessor and internal quality assurance staff:

- are occupationally competent and/or knowledgeable as appropriate to the assessor or IQA role they are carrying out
- have current experience of assessing/internal quality assuring as appropriate to the assessor or IQA role they are carrying out, and
- have access to appropriate training and support.

Information on the induction and continuing professional development of those carrying out assessment and internal quality assurance must be made available by centres to SFJ Awards through the external quality assurance process.

This qualification handbook should be used in conjunction with the SFJ Awards Centre Handbook, the SFJ Awards Assessment Guidance and the SFJ Awards Quality Assurance (Internal and External) Guidance.

4.1 Training Venue and Equipment Requirements

Centres must ensure that they have the following:

Resuscitation manikins	Should be provided at a minimum ratio of 1 manikin per 4 learners. For Paediatric First Aid, 1 child manikin per 4 learners and 1 baby manikin per 4 learners should also be provided.
Hygiene	Sufficient procedures must be in place to ensure hygiene during the use of resuscitation manikins and other training equipment.
AV Equipment and training aids	Sufficient audio-visual equipment and training aids should be available to facilitate learning using varying teaching methods.
Learning materials	Learners should be provided with clear and accurate reference books/handouts covering the topics included in the qualification.

	Learners should have access to these reference materials for the validity of their certification.
AED Trainers	For qualifications that include training in the use of an AED, at least one AED trainer should be available per 4 learners. Where fewer AED trainers are provided, learning hours/lesson plans should be adjusted accordingly to ensure learners are not disadvantaged.
Bandages and dressings	Sufficient clean bandages, dressings and other items commonly found in a first aid kit must be available to facilitate training and assessment.
Training Venue	The training venue must meet acceptable health and safety standards and be conducive to learning, with sufficient: Size, floor surfaces, seating, writing surfaces, toilet facilities, ventilation, lighting, heating, access, exits, cleanliness, absence of distracting noise.

5 Assessment

5.1 Qualification assessment methods

Assessment methods² that can be used for the SFJ Awards Level 3 Award in First Aid at Work and SFJ Awards Level 3 Award in Emergency First Aid at Work are as follows:

- Portfolio of Evidence
- Practical Demonstration / Assignment

The assessment is conducted using the SFJ Awards Level 3 Award in First Aid at Work and SFJ Awards Award in Emergency First Aid at Work Assessment Workbook which is available to download from Odyssey. This assessment workbook is internally marked, and quality assured by the centre, using the provided marking guidance, and externally quality assured by SFJ Awards. All assessment criteria in the unit(s) must be met to achieve the qualification. Centres **are not** permitted to use their own workbook and **must use the assessment workbook provided by SFJ Awards**.

The assessment is designed to determine a learner's ability to act safely, promptly, and effectively when an emergency occurs at work and to deal with a casualty. Assessment may take place at any time during the delivery of these qualifications and does not need to be done as a final assessment. It is however a requirement for the learner to be aware that assessment is taking place. All knowledge and practical assessment evidence must be retained for a minimum of 3 years for audit purposes.

Approved centres must adhere to the requirements detailed in the SFJ Awards Centre Handbook, which includes information for centres on assessment and internal quality assurance (IQA) processes and procedures. All assessment is subject to external quality assurance by SFJ Awards.

5.1.1 Knowledge assessment

The knowledge-based assessment criteria are presented in a question format and can be assessed by written answer or by oral questioning. If using written question and answer, this must be internally marked by the assessor. If using oral question and answer, the answers must be transcribed and marked by the assessor.

5.1.2 Practical assessment

Practical skills can be assessed during or after delivery. A record of the learner's performance must be completed by the assessor in the workbook.

² Selected from assessment methods listed on Ofqual's regulatory system (Portal)

5.2 Trainer, assessor, internal quality assurer and external quality assurer requirements

All trainers, assessors, internal quality assurers and external quality assurers must meet the requirements stipulated within the FFAOF Assessment Principles for Regulated First Aid Qualifications (<https://faaof.org/assessment-principles/>).

Note, the below details the requirements of trainers and assessors separately. It is accepted, however, that both roles may be performed by the same person, providing the qualifications and experience requirements for both roles are met.

5.2.1 Trainer requirements

Those involved in the training of these qualifications must have knowledge and competency in first aid as well as knowledge and competency to train based on qualifications and experience. Trainers must show:

1. Occupational knowledge and competence in first aid – evidenced by:

- Holding a First Aid at Work qualification/medical registration as detailed in Appendix 1

2. Knowledge and competency in teaching/training first aid – evidenced by:

- Holding an acceptable teaching/training qualification as detailed in Appendix 2 **AND either:**
- Providing an acceptable log of teaching first aid within the last 3 years **OR**
- Providing an acceptable record of competently teaching theoretical and practical first aid sessions under the supervision of a suitably qualified trainer/assessor

5.2.2 Assessor requirements

Those involved in the assessment of these qualifications must have knowledge and competency in first aid as well as knowledge and competency to assess based on qualifications and experience. Assessors must show:

1. Occupational knowledge and competence in first aid – evidenced by:

- Holding a first aid at work qualification/medical registration as detailed in Appendix 1

2. Knowledge and competency in assessing first aid – evidenced by:

- Holding an acceptable assessing qualification/CPD Training as detailed in Appendix 2
- AND either:**
- Providing an acceptable log of first aid assessments conducted within the last 3 years
- OR**
- Providing an acceptable record of competently assessing theoretical and practical first aid qualifications under the supervision of a suitably qualified assessor.

Assessors must also:

- have gained their occupational competence by working in the sector relating to the units or qualifications they are assessing. This means they must be able to demonstrate consistent application of the skills and the current supporting knowledge and understanding in the context of a recent role directly related to the qualification units they are assessing as a practitioner, trainer or manager
- be able to interpret and make judgements on current working practices and technologies within the area of work.

5.2.3 Internal quality assurer (IQA) requirements

Those involved in the internal quality assurance of these qualifications (IQAs) must have knowledge and competency in first aid as well as knowledge and competency in internal quality assurance. IQAs must show:

1. Occupational knowledge and competence in first aid – evidenced by:

- Holding a first aid at work qualification/medical registration as detailed in Appendix 1

2. Knowledge and competency in internal quality assurance – evidenced by:

- Holding an acceptable internal quality assurance qualification/CPD training as detailed in Appendix 3

Internal quality assurers (IQAs) must also:

- have knowledge of the requirements of the qualification they are quality assuring at the time any assessment is taking place
- have knowledge and understanding of the role of assessors
- understand the nature and context of the assessors' work and that of their learners. This means that they must have worked closely with staff who carry out the functions covered by the qualifications, possibly by training or supervising them, and have sufficient knowledge of these functions to be able to offer credible advice on the interpretation of the units
- visit and observe assessments

- carry out other related internal quality assurance
- understand the content, structure, and assessment requirements for the qualification(s) they are internal quality assuring*.

**Centres should provide IQAs with an induction to the qualifications that they are responsible for quality assuring. IQAs should also have access to ongoing training and updates on current issues relevant to these qualifications.*

Approved centres will be required to provide SFJ Awards with current evidence of how each member of their team meets these requirements, for example certificates of achievement or testimonials.

5.2.4 External quality assurer (EQA) requirements

Those involved in the external quality assurance of these qualifications (EQAs) must have knowledge and competency in first aid as well as knowledge and competency in external quality assurance. EQAs must show:

1. Occupational knowledge and competence in first aid – evidenced by:

- Holding a first aid at work qualification/medical registration as detailed in Appendix 1

2. Knowledge and competency in external quality assurance – evidenced by:

- Holding an acceptable external quality assurance qualification as detailed in Appendix 4

External quality assurers (EQAs) must also:

- have knowledge of the requirements of the qualification they are quality assuring at the time any assessment is taking place
- have knowledge and understanding of the role of assessors and internal quality assurers.

5.3 Simulations

Simulation is permitted. Further details are included within the unit(s). Proposed simulations must be reviewed to ensure they are fit for purpose as part of the IQA's pre-delivery activity.

5.4 Standardisation

Internal and external standardisation is required to ensure the consistency of evidence, assessment decisions and qualifications awarded over time. Written/audio/electronic records of all standardisation must be maintained, including records of all involved parties.

IQAs should facilitate internal standardisation events for assessors to attend and participate to review evidence used, make judgments, compare quality, and come to a common

understanding of what is sufficient. In addition, it is also good practice to participate in external standardisation activities. SFJ Awards will facilitate external standardisation events which are open to centres and their teams.

Further information on standardisation is available in the SFJ Awards Quality Assurance (Internal and External) Guidance and the SFJ Awards Standardisation Policy.

5.5 Recognition of Prior Learning (RPL)

Recognition of prior learning (RPL) is the process of recognising previous formal, informal or experiential learning so that the learner avoids having to repeat learning/assessment within a new qualification. RPL is a broad concept and covers a range of possible approaches and outcomes to the recognition of prior learning (including credit transfer where an awarding organisation has decided to attribute credit to a qualification).

The use of RPL encourages transferability of qualifications and/or units, which benefits both learners and employers. SFJ Awards supports the use of RPL and centres must work to the principles included in Section 6 Assessment and Quality Assurance of the SFJ Awards Centre Handbook and outlined in SFJ Awards Recognition of Prior Learning Policy.

5.6 Equality and diversity

Centres must comply with legislation and the requirements of the RQF relating to equality and diversity. There should be no barriers to achieving a qualification based on:

- Age
- Disability
- Gender
- Gender reassignment
- Marriage and civil partnerships
- Pregnancy and maternity
- Race
- Religion and belief
- Sexual orientation

Reasonable adjustments are made to ensure that learners who have specific learning needs are not disadvantaged in any way. Learners must declare their needs prior to the assessment and all necessary reasonable adjustment arrangements must have been approved by SFJ Awards and implemented before the time of their assessment.

Further information is available in the SFJ Awards Reasonable Adjustments and Special Considerations Policy and the SFJ Awards Equality of Opportunity Policy.

5.7 Health and safety

SFJ Awards is committed to safeguarding and promoting the welfare of learners, employees and volunteers and expect everyone to share this commitment.

SFJ Awards fosters an open and supportive culture to encourage the safety and well-being of employees, learners and partner organisations to enable:

- learners to thrive and achieve
- employees, volunteers and visitors to feel secure
- everyone to feel assured that their welfare is a high priority.

Centres must ensure that due regard is taken to assess and manage risk and have procedures in place to ensure that:

- qualifications can be delivered safely with risks to learners and those involved in the assessment process minimised as far as possible
- working environments meet relevant health and safety requirements.

Appendix 1: Occupational Knowledge and Competence in First Aid

All trainers, assessors, internal quality assurers and external quality assurers must have occupational knowledge and competence in first aid.

This may be evidenced by:

- Holding a qualification issued by an Ofqual/SQA Accreditation/Qualifications Wales/CCEA Regulation recognised Awarding Organisation/Body (or equivalent³) as follows:

Qualification delivered:	Minimum qualification to be held by the trainer/assessor/IQA/EQA ⁵
First Aid at Work or Emergency First Aid at Work	First Aid at Work

Or

- Current registration as a Doctor with the General Medical Council (GMC)⁴

Or

- Current registration as a Nurse with the Nursing and Midwifery Council (NMC)⁶

Or

- Current registration as a Paramedic with the Health and Care Professions Council (HCPC)⁶

³ If the Trainer/Assessor/IQA/EQA holds a non-regulated first aid qualification the Awarding Organisation/Body should undertake due diligence to ensure current occupational knowledge and competence.

⁴ Registered healthcare professionals must act within their scope of practice and therefore have current expertise in First Aid to teach/assess the subject.

Appendix 2: Acceptable Training/Assessing Qualifications

This list is **not exhaustive** but provides a guide to acceptable training and/or assessing qualifications. Trainers who also assess learner competence must hold a qualification (or separate qualifications) to enable them to perform both functions.

Qualification	Train	Assess*
CURRENT QUALIFICATIONS <i>(available for new trainers/assessors to undertake):</i>		
Level 3 Award in Education and Training	✓	✓
Level 4 Certificate in Education and Training	✓	✓

* Assessors who do not hold a formal assessing qualification may alternatively attend First Aid Assessor CPD Training with an Awarding Organisation/Body

Appendix 3: Qualifications suitable for Internal Quality Assurance

This list is **not exhaustive** but provides a guide to acceptable IQA qualifications:

L&D Unit 11 Internally Monitor and Maintain the Quality of Workplace Assessment SCQF Level 8 (SQA Accredited)
Level 4 Award in the Internal Quality Assurance of Assessment Processes and Practice
Level 4 Certificate in Leading the Internal Quality Assurance of Assessment Processes and Practice
Conduct the Internal Verification Process SCQF Level 8 (SQA Unit)
Regulated Qualifications based on the Learning and Development NOS 11 Internally Monitor and Maintain the Quality of Assessment
V1 Conduct Internal Quality Assurance of the Assessment Process or D34 Internally Verify the Assessment Process
Internally Verify the Assessment Process SCQF Level 8 (SQA Unit)

NOTE:

IQAs who do not hold a formal IQA qualification may alternatively attend Internal Quality Assurance CPD Training with an Awarding Organisation/Body.

Appendix 4: Qualifications suitable for External Quality Assurance

This list is **not exhaustive** but provides a guide to acceptable EQA qualifications:

L&D Unit 12 Externally Monitor and Maintain the Quality of Workplace Assessment SCQF Level 9 (SQA Accredited)
Regulated qualifications based on the Learning and Development NOS 12 Externally Monitor and Maintain the Quality of Assessment
Level 4 Award in the External Quality Assurance of Assessment Processes and Practice
Level 4 Certificate in Leading the External Quality Assurance of Assessment Processes and Practice
Conduct External Verification of the Assessment Process SCQF Level 9 (SQA Unit)
V2 Conduct External Quality Assurance of the Assessment Process or D35 Externally Verify the Assessment Process
Externally Verify the Assessment Process SCQF Level 9 (SQA Unit)

It is understood that not all EQAs will be qualified initially, and that sufficient time should be considered to achieve these qualifications. During this time Awarding Organisations/Bodies must ensure that EQAs are following the principles set out in the current Learning and Development NOS 12 *Externally monitor and maintain the quality of assessment*.
